It Music – 심현보 – 자전거 데이트

As this week's theme for IT Music is artists under the radar, we wanted to continue on with that theme.

Although 심현보 is a big name for his composing and lyrics writing, not many people know of his singing career.

So for today's IT Music, we chose the track '자전거 데이트' by 심현보.

심현보 made his debut into the music scene as a member of the modern rock group 'Island'

He jumped into a solo music career in 2004, but he was noticed for his songwriting and lyrics rather than his music career.

He has composed many hit tracks such as 유리상자's 사랑해도 될까요, 성시경's 우리 제법 잘 어울려요, Jewelry's 니가 참좋아, and T's 시간이 흐른 뒤, just to name a few.

Today's featured track '자전거 데이트' is the title track off of 심현보's recently released album 'Simple Collection.'

The track is a smooth track with an addicting melody line, about going on a date on a bicycle.
